Arweinydd y Ceidwadwyr Cymreig ac Aelod Senedd Cymru dros Orllewin Clwyd  
Leader of the Welsh Conservatives and Member of the Welsh Parliament for Clwyd West

Anthony Slaughter  
Leader, Wales Green Party

30<sup>th</sup> March 2026

Dear Anthony Slaughter,

I am writing to you following deeply disturbing reports of antisemitic comments made by individuals associated with the Green Party.

The language that has been reported is not just offensive—it is outright racist. Describing Jewish people as an “abomination to this planet”, repeating conspiracy theories about Jewish communities staging attacks against themselves, and claiming that Jewish people “murder, bomb and starve” children is vile, and completely unacceptable in any civilised political movement.

This comes at a time when Jewish people across the United Kingdom, including here in Wales, already feel a heightened sense of fear and insecurity. That fear is real, and it is growing. I have visited synagogues on a number of occasions, and have been saddened to see the need for security guards outside places of worship—something that should trouble every one of us who believes in a tolerant and respectful society.

I urge you to speak out clearly and unambiguously to condemn statements of this nature. It is essential that you make clear that such views have no place in your party, and I would welcome you setting out what concrete steps you will take to root out antisemitism wherever it appears within your ranks.

I look forward to your response and to seeing decisive action taken.

Yours sincerely,

**Darren Millar MS**
